Frame Colors

Super-durable TGIC powder coat offering excellent outdoor durability and fade resistance to our steel shelter frames. Able to withstand harsh environments, this tough finish will retain it's smooth, high-gloss finish for many years to come.

Kynar-500® Certified Roof Colors

Providing protection against weathering to extend the life of your roof Kynar-500® PVDF resin-based coatings offer excellent protection to our metal roofs. The high performance fluoropolymer resin, with its extraordinary capability to retain color and gloss, keeps your painted metal roof looking vibrant and appealing.

All colors are an approximate match. Please contact us for a true color sample.
